## KOPELEN JM-380

## PP BLOCK COPOLYMER

January, 2013

## **General Information**

### Description

JM-380 is high impact block copolymer which has more ethylene contents than normal block copolymer.

This grade is designed to be processed in conventional Injection molding equipment. JM-380 shows Ultra high melt flow, controlled rheology and has medium impact resistance and high strength and stiffness.

This grade is appropriate for energy saving and multi-cavity injection molding.

#### Applications

- General domestic supplies
- Base resin for automotive parts
